

Ubitech Systems Inc. and Bayanat Airports Engineering & Supplies LLC Enter Into a Strategic Partnership Agreement

Ottawa, Canada – June 17, 2010 – Ubitech, a world-class leader in aeronautical communications and information management systems, and Bayanat Airports Engineering & Supplies LLC, a leading airport systems integrator, are pleased to announce a new strategic partnership aimed to deliver state of the art systems and services to the Middle East and Gulf regions.

Under the terms of the agreement, Bayanat Airports Engineering & Supplies will be able to provide their customers with Ubitech best-in-class products and services. Well known for their world-class Ubimex AMHS/AFTN, Spatia AIM suit of products (Dynamic AIS Database, AIP) and Aviation Billing, Ubitech has recently diversified their products and services portfolio to include ATN ground-to-ground and ground-to-air routers, DATIS and VOLMET, and expert services such as AIM and GNSS Implementation Programs.

“It’s important that we continue to expand our product portfolio to meet our ever increasing customer demands,” said Mr. Elie Hannouche, Strategic Communications Officer with Bayanat Airports Engineering & Supplies LLC. “This new strategic partnership offers an exciting future for our customers who will benefit from Ubitech’s wide range of products and services not currently being offered by competitors in the region.”

“It pleases me to know that we have partnered with a key player and industry leader in the Middle East,” stated Michael Hoodspith, Vice-President Strategy & Operations. “Ubitech seeks to expand their regional presence. With the combination of Bayanat Airport Engineering & Supplies expertise and Ubitech’s proven products and services, there’s no doubt that our partnership will be a tremendous success.”

About Ubitech

Ubitech is a global supplier of advanced technologies and services with 20 years experience providing solutions for AMHS/AFTN/ATN, AIS/AIM, AIP, AIXM, Aviation Billing, and expert services for GNSS and AIM Implementation. Based in Canada, with installations around the world, Ubitech's technology has proven itself in some of the most demanding arenas of air traffic control. As the world of Civil Aviation progresses, Ubitech continues to be at the forefront by setting the standard for performance, functionality, and reliability.
